FIFA DOGE

PROJECT DESCRIPTION

FifaDoge is a football management game where you can create your own national and generate income while you run it.

Where is \$FIFADOGE used?

There will be a growing ecosystem network in the near future, to expand more products and increase users in the FifaDoge Universe System. In the immediate future, we develop a betting channel \$FIFADOGE on matches with WorldCup 2022 tournaments.

THREAT LEVELS

When performing smart contract audits, our specialists look for known vulnerabilities as well as logical and access control issues within the code. The exploitation of these issues by malicious actors may cause serious financial damage to projects that failed to get an audit in time. We categorize these vulnerabilities by the following levels:

High Risk

Issues on this level are critical to the smart contract's performance/functionality and should be fixed before moving to a live environment.

Medium Risk

Issues on this level are critical to the smart contract's performance/functionality and should be fixed before moving to a live environment.

Low Risk

Issues on this level are minor details and warning that can remain unfixed.

Informational

Information level is to offer suggestions for improvement of efficacy or security for features with a risk free factor.

FOUND THREATS

High Risk

No high risk-level threats found in this contract.

Medium Risk

No medium risk-level threats found in this contract.

Low Risk

No low risk-level threats found in this contract.
