Overview

This audit has been prepared for **Neko Coin** to review the main aspects of the project to help investors make an informative decision in the research process.

You will find a summarized review of the following main key point:

- Contract's source code
- Project and team
- Website
- Social media & online presence

NOTE: We ONLY consider a project safe if they receive our "Certificate of Trust" NFT. This report only points out any potential red flags found in our analysis. Always do your own research before investing in a project.

Smart Contract Review

The contract review process pays special attention to the following:

- Testing the smart contracts against both common and uncommon vulnerabilities
- Assessing the codebase to ensure compliance with current best practices and industry standards.
- Ensuring contract logic meets the specifications and intentions of the client.
- Cross referencing contract structure and implementation against similar smart contracts produced by industry leaders.
- Thorough line-by-line manual review of the entire codebase by industry experts.

Tokenomics

Analysis

⚠️ 34% of liquidity will unlock at **2022/03/18**, 18 days from audit completion. This will lead to significant change in price (negatively) if removed from market LP pair.

⚠️ If the top 3 holders sell simultaneously, this will also lead to significant price drop.

Neko Coin Project & Team Review

According to their website, the main goal of Neko Coin project is to prevent Cats of all breeds from being abandoned. They claim that they will be making regular donations to community chosen cat charities. The current utility of \$NEKOS native token is reflections for holders from every transaction.
