PUMP

Overview

This audit has been prepared for **PUMP** to review the main aspects of the project to help investors make an informative decision in the research process.

You will find a summarized review of the following main key points:

- Contract's source code
- Project and team
- Website
- Social media & online presence

NOTE: We ONLY consider a project safe if they receive our "Certificate of Trust" NFT. This report only points out any potential red flags found in our analysis. Always do your own research before investing in a project.

Smart Contract Review

The contract review process pays special attention to the following:

- Testing the smart contracts against both common and uncommon vulnerabilities
- Assessing the codebase to ensure compliance with current best practices and industry standards.
- Ensuring contract logic meets the specifications and intentions of the client.
- Cross referencing contract structure and implementation against similar smart contracts produced by industry leaders.
- Thorough line-by-line manual review of the entire codebase by industry experts.

"The results of this audit are purely based on the team's evaluation and does not guarantee nor reflect the projects outcome and goal"
– SpyWolf Team

Smart Contract Summary

File name	PUMP.sol
Contract Name	PUMP
Ticker	PMP
Contract	Not deployed yet
Network	Not deployed yet
Language	Solidity
Tax	Buy: 12% Sell: 12% Transfer: 12%
Total Supply	1,000,000,000
Status	Not deployed yet

Current stats

Burn	Not deployed yet
LP Address	Liquidity not added yet
MaxTxAmount	No limit

Issues Checking Status	
Design Logic	Passed ✓
Compiler warnings.	Passed ✓
Private user data leaks	Passed ✓
Timestamp dependence	Passed ✓
Integer Overflow and Underflow	Passed ✓
Race conditions and Reentrancy. Cross-function race conditions	Passed ✓
Possible delays in data delivery	Passed ✓
Oracle calls	Passed ✓
Front running	Passed ✓
DoS with Revert	Passed ✓
DoS with block gas limit	Passed ✓
Methods execution permissions	Passed ✓
Economy model	Passed ✓
The impact of the exchange rate on the logic	Passed ✓
Malicious Event log	Passed ✓
Scoping and Declarations	Passed ✓
Uninitialized storage pointers	Passed ✓
Arithmetic accuracy	Passed ✓
Cross-function race conditions	Passed ✓
Safe Zeppelin module	Passed ✓
Fallback function security	Passed ✓

Featured Wallets

Owner address	Assigned at deployment
*Sell fee recipient	Assigned after deployment
*Buy fee recipient	Assigned after deployment
*Transfer fee recipient	Assigned after deployment
LP token address	No liquidity added yet

Top 3 Unlocked Wallets

Wallet 1 (100%)	N/A
-----------------	-----

***This wallet can be changed by owner**

Security Threads

Owner can change buy/sell/transfer fees up to 30% (combined buy+sell=60%).

```
function setFees(uint _buyFee, uint _sellFee, uint _transferFee) external onlyOwner {
    require(
        _buyFee <= 3000,
        'Buy Fee Too High'
    );
    require(
        _sellFee <= 3000,
        'Sell Fee Too High'
    );
    require(
        _transferFee <= 3000,
        'Transfer Fee Too High'
    );

    buyFee = _buyFee;
    sellFee = _sellFee;
    transferFee = _transferFee;

    emit SetFees(_buyFee, _sellFee, _transferFee);
}
```

Undeclared modifier 'onlyExchange' is used, throws error at compilation.

```
function depositLPFee(uint256 amount, address token) public onlyExchange {
    if(IERC20(token).allowance(msg.sender, address(this)) >= amount) {
        IERC20(token).transferFrom(msg.sender, buyFeeRecipient, amount);
    }
}
```

Smart Contract Summary

File name	Staking.sol
Ticker	N/A
Contract	Not deployed yet
Network	Not deployed yet
Language	Solidity
Tax	Leave early fee: 5%
Total Supply	N/A
Status	Not deployed yet

Current stats

Lock time	2 days
Leave early fee	5%

Security Threads

Owner can change unstaking fee time up to 4 months.

Users who withdraw before unstaking time period end are subjects to fee.

```
function setLockTime(uint256 newLockTime) external onlyOwner {
    require(
        lockTime <= 10**7,
        'Lock Time Too Long'
    );
    lockTime = newLockTime;
    emit SetLockTime(newLockTime);
}
```

Owner can change early unstaking fee up to 10%.

```
function setLeaveEarlyFee(uint256 newEarlyFee) external onlyOwner {
    require(
        newEarlyFee <= 10,
        'Fee Too High'
    );
    leaveEarlyFee = newEarlyFee;
    emit SetEarlyFee(newEarlyFee);
}
```

Owner can withdraw tokens from contract (except for staked tokens).

```
function withdraw(address token_) external onlyOwner {
    require(
        token != token_,
        'Cannot Withdraw Staked Token'
    );
    require(
        IERC20(token_).transfer(
            msg.sender,
            IERC20(token_).balanceOf(address(this))
        ),
        'Failure On Token Withdraw'
    );
}
```

Smart Contract Summary

File name	Feereceiver.sol
Ticker	N/A
Contract	Not deployed yet
Network	Not deployed yet
Language	Solidity
Tax	N/A
Total Supply	N/A
Status	Not deployed yet

Current stats

Treasury percent	25%
Multisig percent	15%
Reward locker percent	50%

Security Threads

Owner can withdraw funds from the contract.

```
function withdraw() external onlyOwner {
    (bool s,) = payable(msg.sender).call{value: address(this).balance}("");
    require(s);
}
function withdraw(address _token) external onlyOwner {
    IERC20(_token).transfer(msg.sender, IERC20(_token).balanceOf(address(this)));
}
```

Tokenomics

According to project's website

*Total supply 100,000,000 \$PMP

- 40% - Private and public sales
- 10% - Marketing and development
- 15% - Foundation
- 20% - Liquidity
- 15% - Team

Tokens distribution

*Current total supply declared in the contract is 1 Billion

PUMP Project & Team Review

According to their whitepaper, \$PMP will be token paired with 50% \$xUSD and 25% \$BNB and 25% BUSD. Holders of \$PMP can benefit from rewards that occurs when there are buys/sells/transfers and also can stake their tokens for rewards. There will also be arbitrage bot.

Disclaimer

This report shows findings based on our limited project analysis, following good industry practice from the date of this report, in relation to cybersecurity vulnerabilities and issues in the framework and algorithms based on smart contracts, overall social media and website presence and team transparency details of which are set out in this report. In order to get a full view of our analysis, it is crucial for you to read the full report.

While we have done our best in conducting our analysis and producing this report, it is important to note that you should not rely on this report and cannot claim against us on the basis of what it says or doesn't say, or how we produced it, and it is important for you to conduct your own independent investigations before making any decisions. We go into more detail on this in the disclaimer below – please make sure to read it in full.

DISCLAIMER:

By reading this report or any part of it, you agree to the terms of this disclaimer. If you do not agree to the terms, then please immediately cease reading this report, and delete and destroy any and all copies of this report downloaded and/or printed by you. This report is provided for information purposes only and on a non-reliance basis, and does not constitute investment advice.

No one shall have any right to rely on the report or its contents, and SpyWolf and its affiliates (including holding companies, shareholders, subsidiaries, employees, directors, officers and other representatives) (SpyWolf) owe no duty of care towards you or any other person, nor does SpyWolf make any warranty or representation to any person on the accuracy or completeness of the report.

The report is provided "as is", without any conditions, warranties or other terms of any kind except as set out in this disclaimer, and SpyWolf hereby excludes all representations, warranties, conditions and other terms (including, without limitation, the warranties implied by law of satisfactory quality, fitness for purpose and the use of reasonable care and skill) which, but for this clause, might have effect in relation to the report. Except and only to the extent that it is prohibited by law, SpyWolf hereby excludes all liability and responsibility, and neither you nor any other person shall have any claim against SpyWolf, for any amount or kind of loss or damage that may result to you or any other person (including without limitation, any direct, indirect, special, punitive, consequential or pure economic loss or damages, or any loss of income, profits, goodwill, data, contracts, use of money, or business interruption, and whether in delict, tort (including without limitation negligence), contract, breach of statutory duty, misrepresentation (whether innocent or negligent) or otherwise under any claim of any nature whatsoever in any jurisdiction) in any way arising from or connected with this report and the use, inability to use or the results of use of this report, and any reliance on this report. The analysis of the security is purely based on the smart contracts, website, social media and team.

No applications were reviewed for security. No product code has been reviewed.
