ARTIK

Overview

This audit has been prepared for **Artik** to review the main aspects of the project to help investors make an informative decision in the research process.

You will find a summarized review of the following main key points:

- Contract's source code
- Project and team
- Website
- Social media & online presence

NOTE: We ONLY consider a project safe if they receive our "Certificate of Trust" NFT. This report only points out any potential red flags found in our analysis. Always do your own research before investing in a project.

Smart Contract Review

The contract review process pays special attention to the following:

- Testing the smart contracts against both common and uncommon vulnerabilities
- Assessing the codebase to ensure compliance with current best practices and industry standards.
- Ensuring contract logic meets the specifications and intentions of the client.
- Cross referencing contract structure and implementation against similar smart contracts produced by industry leaders.
- Thorough line-by-line manual review of the entire codebase by industry experts.

Artik Finance Project & Team Review

According to their wallpaper:

ARTIK focuses on building an ecosystem where investors can suggest, discover and vote for new high potential projects. ARTIK aims at empowering loyal holders by regularly airdropping them with the tokens of the project that has received the most votes during the voting period (1 week).

In order to participate in voting and receiving airdrops, the users must hold \$ARTK tokens. Airdrop distribution is based on \$ARTK holdings of users – the more \$ARTK you hold, the bigger airdrop amount you will receive.
