

Project Audit

Project:

**VaporNodes:
VaporManager**

January 20, 2022

VaporNodes

+

VaporNodes: VaporManager

Overview

This audit has been prepared for **VaporManager** to review the main aspects of the project to help investors make make an informative decision in the research process.

You will find a a summarized review of the following main key point::

- Contract's source code
- Project and team
- Website
- Social media & online presence

Smart Contract Review

The contract review process pays special attention to the following:

- Testing the smart contracts against both common and uncommon vulnerabilities
- Assessing the codebase to ensure compliance with current best practices and industry standards.
- Ensuring contract logic meets the specifications and intentions of the client.
- Cross referencing contract structure and implementation against similar smart contracts produced by industry leaders.
- Thorough line-by-line manual review of the entire codebase by industry experts.

"The results of this audit are purely based on the team's evaluation and does not guarantee nor reflect the projects outcome and goal"
– SpyWolf Team

Smart Contract Summary

Contract Name	VaporManager
Ticker	Proxy Contract for Token VPND
Contract	0x0E613Ebc1598e889963e4AF450bfC2a70d390C96
Network	Binance Smart Chain
Language	Solidity
Tax	Team Pool Fee: 1% Rewards Fee: 8% Liquidity Pool Fee: 1% Cashout Fee: 9% rwSwap Fee: 3% Compound Fee: 0% Burn Fee: 0.1% Merge Fee: 1%
Status	Launched

Token handled : 0x83a283641C6B4DF383BCDDf807193284C84c5342

Issues Checking Status	
Design Logic	Passed ✓
Compiler warnings.	Passed ✓
Private user data leaks	Passed ✓
Timestamp dependence	Passed ✓
Integer Overflow and Underflow	Passed ✓
Race conditions and Reentrancy. Cross-function race conditions	Passed ✓
Possible delays in data delivery	Passed ✓
Oracle calls	Passed ✓
Front running	Passed ✓
DoS with Revert	Passed ✓
DoS with block gas limit	Passed ✓
Methods execution permissions	Passed ✓
Economy model	Passed ✓
The impact of the exchange rate on the logic	Passed ✓
Malicious Event log	Passed ✓
Scoping and Declarations	Passed ✓
Uninitialized storage pointers	Passed ✓
Arithmetic accuracy	Passed ✓
Cross-function race conditions	Passed ✓
Safe Zeppelin module	Passed ✓
Fallback function security	Passed ✓

Security Threats (Low Risk)

Owner can blacklist an address

```
function blacklistAddress(address account, bool value) external onlyOwner {  
    isBlacklisted[account] = value;  
}
```

Owner can update fees

```
function updateFee(string memory _key, uint256 _value) external onlyOwner {  
    fees[keccak256(abi.encodePacked(_key))] = _value;  
}
```

VaporNodes Project & Team Review

VaporNodes is a digital node protocol that gives you access to DeFi projects across multiple chains. The goal of VaporNodes is to make DeFi accessible to anyone and everyone – decentralized finance as a service. VaporNodes is one of the first DaaS companies to utilize the Avalanche network because of low fees and fast transaction times. The transparency and community of VaporNodes is what sets us apart from other companies in this space. Join our discord to become part of the community!

Team:

- There is no info on the team on their website or whitepaper ⚠

Website Analysis

- **Design:** Very nice color scheme and overall layout
- **Content:** The information helps new investors understand what the product does right away. No grammar errors found.
- **Whitepaper:** Well written with a nice layout
- **Roadmap:** No roadmap found
- **Mobile-friendly?** Yes
- **Technical:** SSL certificate present. General SEO check passed

Disclaimer

This report shows findings based on our limited project analysis, following good industry practice from the date of this report, in relation to cybersecurity vulnerabilities and issues in the framework and algorithms based on smart contracts, overall social media and website presence and team transparency details of which are set out in this report. In order to get a full view of our analysis, it is crucial for you to read the full report.

While we have done our best in conducting our analysis and producing this report, it is important to note that you should not rely on this report and cannot claim against us on the basis of what it says or doesn't say, or how we produced it, and it is important for you to conduct your own independent investigations before making any decisions. We go into more detail on this in the disclaimer below – please make sure to read it in full.

DISCLAIMER:

By reading this report or any part of it, you agree to the terms of this disclaimer. If you do not agree to the terms, then please immediately cease reading this report, and delete and destroy any and all copies of this report downloaded and/or printed by you. This report is provided for information purposes only and on a non-reliance basis, and does not constitute investment advice.

No one shall have any right to rely on the report or its contents, and SpyWolf and its affiliates (including holding companies, shareholders, subsidiaries, employees, directors, officers and other representatives) (SpyWolf) owe no duty of care towards you or any other person, nor does SpyWolf make any warranty or representation to any person on the accuracy or completeness of the report.

The report is provided "as is", without any conditions, warranties or other terms of any kind except as set out in this disclaimer, and SpyWolf hereby excludes all representations, warranties, conditions and other terms (including, without limitation, the warranties implied by law of satisfactory quality, fitness for purpose and the use of reasonable care and skill) which, but for this clause, might have effect in relation to the report. Except and only to the extent that it is prohibited by law, SpyWolf hereby excludes all liability and responsibility, and neither you nor any other person shall have any claim against SpyWolf, for any amount or kind of loss or damage that may result to you or any other person (including without limitation, any direct, indirect, special, punitive, consequential or pure economic loss or damages, or any loss of income, profits, goodwill, data, contracts, use of money, or business interruption, and whether in delict, tort (including without limitation negligence), contract, breach of statutory duty, misrepresentation (whether innocent or negligent) or otherwise under any claim of any nature whatsoever in any jurisdiction) in any way arising from or connected with this report and the use, inability to use or the results of use of this report, and any reliance on this report. The analysis of the security is purely based on the smart contracts, website, social media and team.

No applications were reviewed for security. No product code has been reviewed.
