

SPYWOLF

Security Audit Report

Completed on
June 12, 2022

MADE IN USA 

 @SPYWOLFNETWORK

 @SPYWOLFNETWORK

 SPYWOLF.CO

OVERVIEW

This audit has been prepared for **Crockyinu** to review the main aspects of the project to help investors make an informative decision during their research process.

You will find a summarized review of the following key points:

- ✓ Contract's source code
- ✓ Owners' wallets
- ✓ Tokenomics
- ✓ Team transparency and goals
- ✓ Website's age, code, security and UX
- ✓ Whitepaper and roadmap
- ✓ Social media & online presence

“

The results of this audit are purely based on the team's evaluation and does not guarantee nor reflect the projects outcome and goal

”

- SPYWOLF Team -

CROCKY INU

PROJECT DESCRIPTION

According to their whitepaper:

Crocky Inu is a project in which the main element will be the \$CROC token. \$CROC utilities, further guaranteed by the staking program designed by the team.

Future project development will be as follows:

- NFT mining
- Staking dapps
- Dating app

Release Date: June 12, 2022

Category: NFT/Staking

CONTRACT INFO

Contract Name	Symbol
Crocs	\$CROC
Contract Address	
0xBa848Cee6cC36775A3ec374974Ac59BF593fa9dd	
Network	Language
Binance Smart Chain	Solidity
Deployment Date	Verified?
June 12, 2022	Yes
Total Supply	Status
1,000,000,000	Not launched

TAXES

*Fees can be changed in future

Our Contract Review Process

The contract review process pays special attention to the following:

- ✓ Testing the smart contracts against both common and uncommon vulnerabilities
- ✓ Assessing the codebase to ensure compliance with current best practices and industry standards.
- ✓ Ensuring contract logic meets the specifications and intentions of the client.
- ✓ Cross referencing contract structure and implementation against similar smart contracts produced by industry leaders.
- ✓ Thorough line-by-line manual review of the entire codebase by industry experts.

Blockchain security tools used:

- OpenZeppelin
- Mythril
- Solidity Compiler
- Hardhat

CURRENT STATS

(As of June 12, 2022)

Liquidity

Not added yet

Burn

54% of total
supply

Status:
Not Launched!

MaxTxAmount
No limit

No additional Info

LP Address(es)

Liquidity not added yet

TOKEN TRANSFERS STATS

Transfer Count	10
Uniq Senders	3
Uniq Receivers	6
Total Amount	28999999999 \$CROC
Median Transfer Amount	54000000 \$CROC
Average Transfer Amount	2899999999 \$CROC
First transfer date	2022-06-12
Last transfer date	2022-06-12
Days token transferred	1

SMART CONTRACT STATS

Calls Count	24
External calls	14
Internal calls	13
Transactions count	18
Uniq Callers	4
Days contract called	1
Last transaction time	2022-06-12 17:24:44 UTC
Created	2022-06-12 15:58:08 UTC
Create TX	0x3332f4a66482a2bfdeeldf8c54bd3678517767944148b357a8fa055e91231d4d
Creator	0xbf53c9bfa74a70c3125cd7a4736054a7a98d0b5e

FEATURED WALLETS

Owner address	0x707e58691489488bc9e3e4326c5a4e79b21de1f5
Marketing wallet	0x54347112e5bff18c1e7b811d1728137987f4d567
Team wallet	0x10f483993aee9dcdbde4f0706d12422768733299
LP address	Liquidity not added yet

TOP 3 UNLOCKED WALLETS

(Crockyinu’s contract)

VULNERABILITY CHECK

Design Logic	Passed
Compiler warnings.	Passed
Private user data leaks	Passed
Timestamp dependence	Passed
Integer overflow and underflow	Passed
Race conditions and reentrancy. Cross-function race conditions	Passed
Possible delays in data delivery	Passed
Oracle calls	Passed
Front running	Passed
DoS with Revert	Passed
DoS with block gas limit	Passed
Methods execution permissions	Passed
Economy model	Passed
Impact of the exchange rate on the logic	Passed
Malicious Event log	Passed
Scoping and declarations	Passed
Uninitialized storage pointers	Passed
Arithmetic accuracy	Passed
Cross-function race conditions	Passed
Safe Zeppelin module	Passed
Fallback function security	Passed

THREAT LEVELS

When performing smart contract audits, our specialists look for known vulnerabilities as well as logical and access control issues within the code. The exploitation of these issues by malicious actors may cause serious financial damage to projects that failed to get an audit in time. We categorize these vulnerabilities by the following levels:

High Risk

Issues on this level are critical to the smart contract's performance/functionality and should be fixed before moving to a live environment.

Medium Risk

Issues on this level are critical to the smart contract's performance/functionality and should be fixed before moving to a live environment.

Low Risk

Issues on this level are minor details and warning that can remain unfixed.

Informational

Information level is to offer suggestions for improvement of efficacy or security for features with a risk free factor.

FOUND THREATS

⚠ Medium Risk

Owner can change buy/sell fees up to 15% (combined buy+sell=30%).

```
function setTokenRewardsFee(uint256 value) external onlyOwner {
    tokenRewardsFee = value;
    totalFees = tokenRewardsFee.add(liquidityFee).add(marketingFee).add(teamFee).add(stakingFee);
    require(totalFees <= 15, "Total fee is over 15%");
}
function setLiquidityFee(uint256 value) external onlyOwner {
    liquidityFee = value;
    totalFees = tokenRewardsFee.add(liquidityFee).add(marketingFee).add(teamFee).add(stakingFee);
    require(totalFees <= 15, "Total fee is over 15%");
}
function setMarketingFee(uint256 value) external onlyOwner {
    marketingFee = value;
    totalFees = tokenRewardsFee.add(liquidityFee).add(marketingFee).add(teamFee).add(stakingFee);
    require(totalFees <= 15, "Total fee is over 15%");
}
function setStakingFee(uint256 value) external onlyOwner {
    stakingFee = value;
    totalFees = tokenRewardsFee.add(liquidityFee).add(marketingFee).add(teamFee).add(stakingFee);
    require(totalFees <= 15, "Total fee is over 15%");
}
function setTeamFee(uint256 value) external onlyOwner {
    teamFee = value;
    totalFees = tokenRewardsFee.add(liquidityFee).add(marketingFee).add(teamFee).add(stakingFee);
    require(totalFees <= 15, "Total fee is over 15%");
}
```

- Recommendation:
 - It is good practice for fees not to exceed 25% for buy+sell combined.

FOUND THREATS

⚠ Medium Risk

Blacklist Function

- Owner can blacklist address, making it impossible to sell.

```
function blacklist(address account, bool what) external onlyOwner {  
    require(account != address(this));  
    require(account != owner());  
    require(account != uniswapV2Pair);  
    require(account != address(uniswapV2Router));  
    _blacklist[account] = what;  
}
```

RECOMMENDATIONS FOR

GOOD PRACTICES

1

Consider fundamental tradeoffs

2

Be attentive to blockchain properties

3

Ensure careful rollouts

4

Keep contracts simple

5

Stay up to date and track development

CrockyInu

GOOD PRACTICES FOUND

- ✓ The owner cannot mint new tokens after deployment
- ✓ The owner can't set a transaction limit
- ✓ The smart contract utilizes "SafeMath" to prevent overflows

*There is no information about token distribution in their website/socials.
The following tokenomics are based on the Pinksale's presale stats:

- 54% - Burnt
- 15% - Presale
- 8.5% - Liquidity
- 6.45% - Locked
- 16% - Unlocked

Token Distribution

- Burnt
- Presale
- Liquidity
- Locked
- Unlocked

TOKENOMICS

THE TEAM

The team at Croky Inu has privately doxxed to SPYWOLF by completing the following KYC requirements:

- ID Verification
- Video statement
- Video interview with devs
- Owner's wallet verification

Disclaimer

This report shows findings based on our limited project analysis, following good industry practice from the date of this report, in relation to cybersecurity vulnerabilities and issues in the framework and algorithms based on smart contracts, overall social media and website presence and team transparency details of which are set out in this report. In order to get a full view of our analysis, it is crucial for you to read the full report.

While we have done our best in conducting our analysis and producing this report, it is important to note that you should not rely on this report and cannot claim against us on the basis of what it says or doesn't say, or how we produced it, and it is important for you to conduct your own independent investigations before making any decisions. We go into more detail on this in the disclaimer below – please make sure to read it in full.

DISCLAIMER:

By reading this report or any part of it, you agree to the terms of this disclaimer. If you do not agree to the terms, then please immediately cease reading this report, and delete and destroy any and all copies of this report downloaded and/or printed by you. This report is provided for information purposes only and on a non-reliance basis, and does not constitute investment advice.

No one shall have any right to rely on the report or its contents, and SpyWolf and its affiliates (including holding companies, shareholders, subsidiaries, employees, directors, officers and other representatives) (SpyWolf) owe no duty of care towards you or any other person, nor does SpyWolf make any warranty or representation to any person on the accuracy or completeness of the report.

The report is provided "as is", without any conditions, warranties or other terms of any kind except as set out in this disclaimer, and SpyWolf hereby excludes all representations, warranties, conditions and other terms (including, without limitation, the warranties implied by law of satisfactory quality, fitness for purpose and the use of reasonable care and skill) which, but for this clause, might have effect in relation to the report. Except and only to the extent that it is prohibited by law, SpyWolf hereby excludes all liability and responsibility, and neither you nor any other person shall have any claim against SpyWolf, for any amount or kind of loss or damage that may result to you or any other person (including without limitation, any direct, indirect, special, punitive, consequential or pure economic loss or damages, or any loss of income, profits, goodwill, data, contracts, use of money, or business interruption, and whether in delict, tort (including without limitation negligence), contract, breach of statutory duty, misrepresentation (whether innocent or negligent) or otherwise under any claim of any nature whatsoever in any jurisdiction) in any way arising from or connected with this report and the use, inability to use or the results of use of this report, and any reliance on this report. The analysis of the security is purely based on the smart contracts, website, social media and team.

No applications were reviewed for security. No product code has been reviewed.
