

Project Audit

Project:
THONIC

May 31, 2022

Overview

This audit has been prepared for **THONIC** to review the main aspects of the project to help investors make an informative decision in the research process.

You will find a summarized review of the following main key points:

- Contract's source code
- Project and team
- Website
- Social media & online presence

NOTE: We ONLY consider a project safe if they receive our "Certificate of Trust" NFT. This report only points out any potential red flags found in our analysis. Always do your own research before investing in a project.

Smart Contract Review

The contract review process pays special attention to the following:

- Testing the smart contracts against both common and uncommon vulnerabilities
- Assessing the codebase to ensure compliance with current best practices and industry standards.
- Ensuring contract logic meets the specifications and intentions of the client.
- Cross referencing contract structure and implementation against similar smart contracts produced by industry leaders.
- Thorough line-by-line manual review of the entire codebase by industry experts.

THONIC

Project & Team Review

According to their whitepaper:

Thonic's platform will be a software service that offers a variety of financial tools to help investors decide which cryptocurrencies to invest and hold, and in the future also help them manage their portfolios.

The platform will be released in multiple phases and have a multi-package pricing model, with each tier offering more personalized financial tools.

Thonic's team of analysts will research, vet and create standardized financial reports for selected tokens.

The Report Library will be included in all tiers of the Thonic platform and be provided as a SaaS (software as a service) product free of charge to all \$THONIC token holders with a minimum holdings balance.
