

Project Audit

Project:
DiversiFi

March 25, 2022

Overview

This audit has been prepared for **DiversiFi** to review the main aspects of the project to help investors make an informative decision in the research process.

You will find a summarized review of the following main key point::

- Contract's source code
- Project and team
- Website
- Social media & online presence

NOTE: We ONLY consider a project safe if they receive our "Certificate of Trust" NFT. This report only points out any potential red flags found in our analysis. Always do your own research before investing in a project.

Smart Contract Review

The contract review process pays special attention to the following:

- Testing the smart contracts against both common and uncommon vulnerabilities
- Assessing the codebase to ensure compliance with current best practices and industry standards.
- Ensuring contract logic meets the specifications and intentions of the client.
- Cross referencing contract structure and implementation against similar smart contracts produced by industry leaders.
- Thorough line-by-line manual review of the entire codebase by industry experts.

- **Design:** Nice color scheme, template design, single page.
- **Content:** Not well written and not very informative. Some parts of the content are copied 1:1 from another website. ⚠️
- **Whitepaper:** Explanatory, little bit short, no grammar mistakes.
- **Roadmap:** Goals set at 4 phases without time frames.
- **Mobile-friendly?** Yes, but part of the header element is with wrong positioning, causing it to cover big part of screen. ⚠️
- **Technical:** SSL certificate present. General SEO check passed.
