

SPYWOLF

Security Audit Report

Completed on
July 07, 2022

MADE IN USA 

@SPYWOLFNETWORK

@SPYWOLFNETWORK

SPYWOLF.CO

OVERVIEW

This audit has been prepared for **SALAH** to review the main aspects of the project to help investors make an informative decision during their research process.

You will find a summarized review of the following key points:

- ✓ Contract's source code
- ✓ Owners' wallets
- ✓ Tokenomics
- ✓ Team transparency and goals
- ✓ Website's age, code, security and UX
- ✓ Whitepaper and roadmap
- ✓ Social media & online presence

“

The results of this audit are purely based on the team's evaluation and does not guarantee nor reflect the projects outcome and goal

- SPYWOLF Team -

”

TABLE OF CONTENTS

SALAH

PROJECT DESCRIPTION

According to their whitepaper:

Behind the SALAH token will be an organization, which will direct its development. They will aim to transform it into a for-profit charitable organization.

Future developments of the project:

- NFT
- SALAH Wallet
- SALAH Exchange
- NFT Marketplace
- SALAH Stablecoin

Release Date: Launched on July 04, 2022

Category: DEX/CEX/NFT

CONTRACT INFO

Token Name
Salah ad-Din

Symbol
SALAH

Contract Address

0x9F07C9112E482eb5e21d3c279d82203893e45CBa

Network

Binance Smart Chain

Language

Solidity

Deployment Date

June 26, 2022

Verified?

Yes

Total Supply

1,000,000,000,000

Status

Launched

TAXES

Buy Tax
none

Sell Tax
none

*Taxes can be changed in future

Our Contract Review Process

The contract review process pays special attention to the following:

- ✓ Testing the smart contracts against both common and uncommon vulnerabilities
- ✓ Assessing the codebase to ensure compliance with current best practices and industry standards.
- ✓ Ensuring contract logic meets the specifications and intentions of the client.
- ✓ Cross referencing contract structure and implementation against similar smart contracts produced by industry leaders.
- ✓ Thorough line-by-line manual review of the entire codebase by industry experts.

Blockchain security tools used:

- OpenZeppelin
- Mythril
- Solidity Compiler
- Hardhat

CURRENT STATS

(As of July 07, 2022)

Liquidity

PancakeSwap:
55 WBNB

Burn

No tokens burnt

Status:
Launched!

MaxTxAmount
No limit

DEX:
PancakeSwap

LP Address(es)

Pancakeswap:

0xD3A09F8e21De5213C375347525C679F9593FC42C

21% Unlocked

78.9% locked in PinkLock – unlocks at 2022.12.31

TOKEN TRANSFERS STATS

Transfer Count	1738
Uniq Senders	272
Uniq Receivers	381
Total Amount	5691980696918.518 SALAH
Median Transfer Amount	938065131.0501865 SALAH
Average Transfer Amount	3275017662.208583 SALAH
First transfer date	2022-06-26
Last transfer date	2022-07-06
Days token transferred	5

SMART CONTRACT STATS

Calls Count	5264
External calls	293
Internal calls	4971
Transactions count	2144
Uniq Callers	309
Days contract called	4
Last transaction time	2022-07-07 11:31:32 UTC
Created	2022-07-03 23:36:47 UTC
Create TX	0x8d893c5d053efcfa038dde352f9b51b64a4d7533a5a1037040c4a7e53dfe2ced
Creator	0xe53a02848392c8071636815a2d2adea58ded8ab4

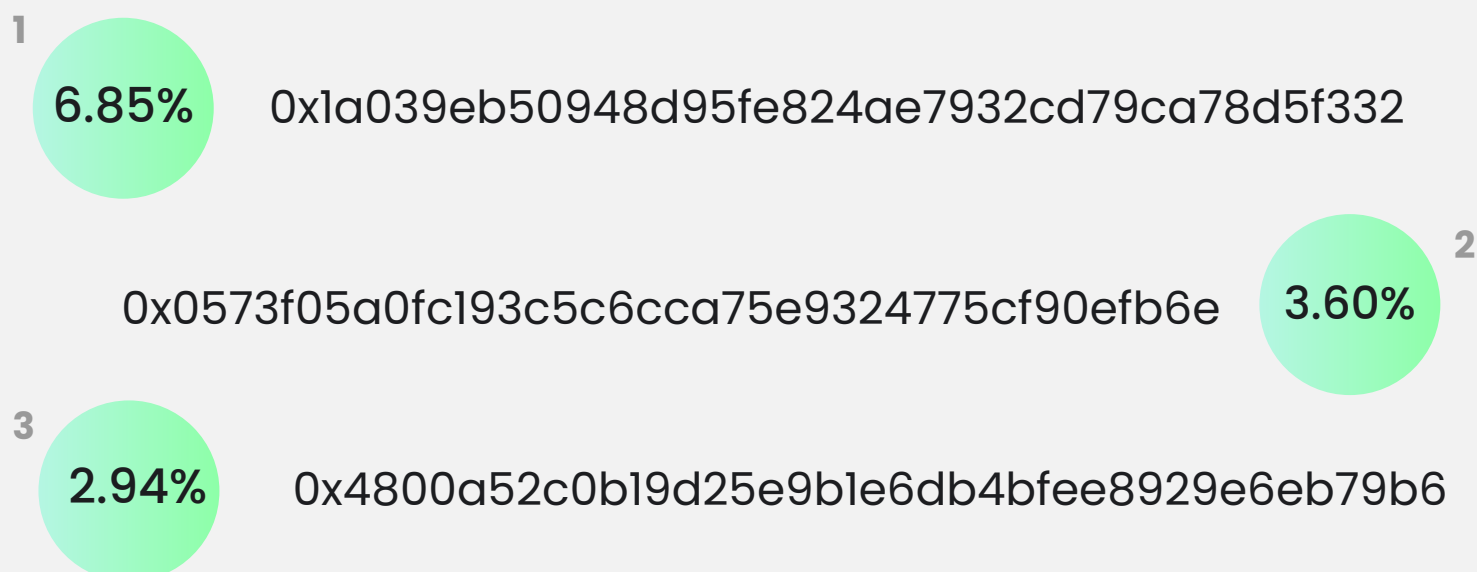

FEATURED WALLETS

*Owner address	0x30de33f6f557acd66e7919b9379044e2de4294b6
*Dev wallet	Same as owner
*Charity wallet	0x9eA8eA380eaEF925406231f37c8E6AEC729B5f06
*Marketing wallet	0x1A51380dfE215971D375F67666504d4F4669c16B
LP address	Pancakeswap: 0xD3A09F8e21De5213C375347525C679F9593FC42C 21% Unlocked 78.9% locked in PinkLock - unlocks at 2022.12.31 https://www.pinksale.finance/pinklock/record/1013950?chain=BSC

*Wallet can be changed in future

TOP 3 UNLOCKED WALLETS

VULNERABILITY CHECK

Design Logic	Passed
Compiler warnings.	Passed
Private user data leaks	Passed
Timestamp dependence	Passed
Integer overflow and underflow	Passed
Race conditions and reentrancy. Cross-function race conditions	Passed
Possible delays in data delivery	Passed
Oracle calls	Passed
Front running	Passed
DoS with Revert	Passed
DoS with block gas limit	Passed
Methods execution permissions	Passed
Economy model	Passed
Impact of the exchange rate on the logic	Passed
Malicious Event log	Passed
Scoping and declarations	Passed
Uninitialized storage pointers	Passed
Arithmetic accuracy	Passed
Cross-function race conditions	Passed
Safe Zeppelin module	Passed
Fallback function security	Passed

THREAT LEVELS

When performing smart contract audits, our specialists look for known vulnerabilities as well as logical and access control issues within the code. The exploitation of these issues by malicious actors may cause serious financial damage to projects that failed to get an audit in time. We categorize these vulnerabilities by the following levels:

High Risk

Issues on this level are critical to the smart contract's performance/functionality and should be fixed before moving to a live environment.

Medium Risk

Issues on this level are critical to the smart contract's performance/functionality and should be fixed before moving to a live environment.

Low Risk

Issues on this level are minor details and warning that can remain unfixed.

Informational

Information level is to offer suggestions for improvement of efficacy or security for features with a risk free factor.

FOUND THREATS

⚠ Medium Risk

Owner can set buy/sell fees up to 20% (combined buy+sell=40%).

```
uint256 public constant denominator = 10000;

function setBuyTax(uint256 _dev, uint256 _marketing,
uint256 _liquidity, uint256 _charity) external onlyOwner {
    require(_dev <= 500, "SALAH: Maximum 5%");
    require(_marketing <= 500, "SALAH: Maximum 5%");
    require(_liquidity <= 500, "SALAH: Maximum 5%");
    require(_charity <= 500, "SALAH: Maximum 5%");

    buyTaxes["dev"] = _dev;
    buyTaxes["marketing"] = _marketing;
    buyTaxes["liquidity"] = _liquidity;
    buyTaxes["charity"] = _charity;
}

function setSellTax(uint256 _dev, uint256 _marketing,
uint256 _liquidity, uint256 _charity) external onlyOwner {
    require(_dev <= 500, "SALAH: Maximum 5%");
    require(_marketing <= 500, "SALAH: Maximum 5%");
    require(_liquidity <= 500, "SALAH: Maximum 5%");
    require(_charity <= 500, "SALAH: Maximum 5%");

    buyTaxes["dev"] = _dev;
    buyTaxes["marketing"] = _marketing;
    buyTaxes["liquidity"] = _liquidity;
    buyTaxes["charity"] = _charity;
}
```

- Recommendation:
 - Considered as good tax deduction practice is buy and sell fees combined to to exceed 25%.

FOUND THREATS

Medium Risk

Owner can blacklist only contract addresses.
If liquidity pair is blacklisted, this will lead to inability to trade.

```
function enableBlacklist(address account) external onlyOwner {  
    require(isContract(account), "SALAH: Cannot blacklist users");  
    require(!blacklist[account], "SALAH: Account is already blacklisted");  
    blacklist[account] = true;  
}
```

- Recommendation:
 - Considered as good transfers limitation practice is liquidity pair to be excluded from such practices.

Informational

Owner can exclude address from traxes.

```
function exclude(address account) public onlyOwner {  
    require(!isExcluded(account), "SALAH: Account is already excluded");  
    excludeList[account] = true;  
}
```

RECOMMENDATIONS FOR

GOOD PRACTICES

1

Consider fundamental tradeoffs

2

Be attentive to blockchain properties

3

Ensure careful rollouts

4

Keep contracts simple

5

Stay up to date and track development

SALAH

GOOD PRACTICES FOUND

- ✓ The owner cannot mint new tokens after deployment
- ✓ The owner cannot stop or pause the contract
- ✓ The owner cannot set a transaction limit
- ✓ The smart contract utilizes "SafeMath" to prevent overflows

Current state

- 38.5% - Locked in Pinklock
- 21.76% - Liquidity pair
- 17.91% - Top 5 holders
- 21.83% - Rest holders

Token Distribution

- Locked
- Liquidity pair
- Top 5 holders
- Rest holders

THE TEAM

The team has privately doxxed to SPYWOLF by completing the following KYC requirements:

- ID Verification
- Video statement
- Video interview with devs
- Owner's wallet verification

Disclaimer

This report shows findings based on our limited project analysis, following good industry practice from the date of this report, in relation to cybersecurity vulnerabilities and issues in the framework and algorithms based on smart contracts, overall social media and website presence and team transparency details of which are set out in this report. In order to get a full view of our analysis, it is crucial for you to read the full report.

While we have done our best in conducting our analysis and producing this report, it is important to note that you should not rely on this report and cannot claim against us on the basis of what it says or doesn't say, or how we produced it, and it is important for you to conduct your own independent investigations before making any decisions. We go into more detail on this in the disclaimer below – please make sure to read it in full.

DISCLAIMER:

By reading this report or any part of it, you agree to the terms of this disclaimer. If you do not agree to the terms, then please immediately cease reading this report, and delete and destroy any and all copies of this report downloaded and/or printed by you. This report is provided for information purposes only and on a non-reliance basis, and does not constitute investment advice.

No one shall have any right to rely on the report or its contents, and SpyWolf and its affiliates (including holding companies, shareholders, subsidiaries, employees, directors, officers and other representatives) (SpyWolf) owe no duty of care towards you or any other person, nor does SpyWolf make any warranty or representation to any person on the accuracy or completeness of the report.

The report is provided "as is", without any conditions, warranties or other terms of any kind except as set out in this disclaimer, and SpyWolf hereby excludes all representations, warranties, conditions and other terms (including, without limitation, the warranties implied by law of satisfactory quality, fitness for purpose and the use of reasonable care and skill) which, but for this clause, might have effect in relation to the report. Except and only to the extent that it is prohibited by law, SpyWolf hereby excludes all liability and responsibility, and neither you nor any other person shall have any claim against SpyWolf, for any amount or kind of loss or damage that may result to you or any other person (including without limitation, any direct, indirect, special, punitive, consequential or pure economic loss or damages, or any loss of income, profits, goodwill, data, contracts, use of money, or business interruption, and whether in delict, tort (including without limitation negligence), contract, breach of statutory duty, misrepresentation (whether innocent or negligent) or otherwise under any claim of any nature whatsoever in any jurisdiction) in any way arising from or connected with this report and the use, inability to use or the results of use of this report, and any reliance on this report. The analysis of the security is purely based on the smart contracts, website, social media and team.

No applications were reviewed for security. No product code has been reviewed.
