

**Security Audit Report** 

Completed on March 10, 2023

# OVERVIEW

This audit has been prepared for **RAISENSU** to review the main aspects of the project to help investors make make an informative decision during their research process.

You will find a a summarized review of the following key points:

- ✓ Contract's source code
- ✓ Owners' wallets
- ✓ Tokenomics
- ✓ Team transparency and goals
- ✓ Website's age, code, security and UX
- ✓ Whitepaper and roadmap
- ✓ Social media & online presence

The results of this audit are purely based on the team's evaluation and does not guarantee nor reflect the projects outcome and goal

- SPYWOLF Team -

# RAISENSU SENSON

### **PROJECT DESCRIPTION**

### According to their whitepaper:

Raisensu is a new age metaverse project, with one simple goal in mind. Change the way digital collectibles interact with the blockchain, and meaningfully shape the integration of playable nfts, with in-game worlds. Raisensu provides core infrastructure for projects seeking to take their digital collectibles into the metaverse. Raisensu breaks down into many sub-categories of assets, with two towering classes, Infrastructure Products and Gaming Products.

Release Date: Presale starts in March, 2023

Category: Metaverse

# CONTRACT INFO

Token Name

Raisensu

Symbol

RAI

**Contract Address** 

0x3fd9FC9e74C6351e2b8Af20B952dC06015D5d074

Network

**Arbitrum** 

Verified?

Solidity

Language

Deployment Date March 10, 2023

Yes

Total Supply

777,777,777,777

Status

Not launched

### **TAXES**

Buy Tax **none**  Sell Tax **none** 

# Our Contract Review Process

The contract review process pays special attention to the following:

- Testing the smart contracts against both common and uncommon vulnerabilities
- Assessing the codebase to ensure compliance with current best practices and industry standards.
- Ensuring contract logic meets the specifications and intentions of the client.
- Cross referencing contract structure and implementation against similar smart contracts produced by industry leaders.
- Thorough line-by-line manual review of the entire codebase by industry experts.

### **Blockchain security tools used:**

- OpenZeppelin
- Mythril
- Solidity Compiler
- Hardhat

### **TOKEN TRANSFERS STATS**

Transfer Count	1	
Uniq Senders	1	
Uniq Receivers	1	
Total Amount	777,777,777,777 RAI	
Median Transfer Amount	777,777,777,777 RAI	
Average Transfer Amount	777,777,777,777 RAI	
First transfer date	Mar-10-2023 05:24:02 PM	
Last transfer date	Mar-10-2023 05:24:02 PM	
Days token transferred	1	

### **SMART CONTRACT STATS**

Calls Count	1
External calls	1
Internal calls	0
Transactions count	1
Uniq Callers	1
Days contract called	1
Last transaction time	Mar-10-2023 05:24:02 PM
Created	Mar-10-2023 05:24:02 PM
Create TX	0xeed1b43a4e0083a43db645aaf14a88b9b5 538ca53db56ca6f6696d3517a91e63
Creator	0x6e66df1fee6bb215cf80ce8e3f74c2acf6a6 6c62

### **VULNERABILITY CHECK**

Design Logic	Passed
Compiler warnings.	Passed
Private user data leaks	Passed
Timestamp dependence	Passed
Integer overflow and underflow	Passed
Race conditions and reentrancy. Cross-function race conditions	Passed
Possible delays in data delivery	Passed
Oracle calls	Passed
Front running	Passed
DoS with Revert	Passed
DoS with block gas limit	Passed
Methods execution permissions	Passed
Economy model	Passed
Impact of the exchange rate on the logic	Passed
Malicious Event log	Passed
Scoping and declarations	Passed
Uninitialized storage pointers	Passed
Arithmetic accuracy	Passed
Cross-function race conditions	Passed
Safe Zeppelin module	Passed
Fallback function security	Passed

### THREAT LEVELS

When performing smart contract audits, our specialists look for known vulnerabilities as well as logical and access control issues within the code. The exploitation of these issues by malicious actors may cause serious financial damage to projects that failed to get an audit in time. We categorize these vulnerabilities by the following levels:

### High Risk

Issues on this level are critical to the smart contract's performance/functionality and should be fixed before moving to a live environment.

### Medium Risk

Issues on this level are critical to the smart contract's performance/functionality and should be fixed before moving to a live environment.

### **Low Risk**

Issues on this level are minor details and warning that can remain unfixed.

### Informational

Information level is to offer suggestions for improvement of efficacy or security for features with a risk free factor.

### **FOUND THREATS**

### High Risk

No high risk-level threats found in this contract.

### Medium Risk

No medium risk-level threats found in this contract.

### Low Risk

No low risk-level threats found in this contract.

Contract's ownership is renounced.
Owner do not have any special privileges.

### RECOMMENDATIONS FOR

# GOOD PRACTICES

- Consider fundamental tradeoffs
- Be attentive to blockchain properties
- 3 Ensure careful rollouts
- 4 Keep contracts simple
- Stay up to date and track development

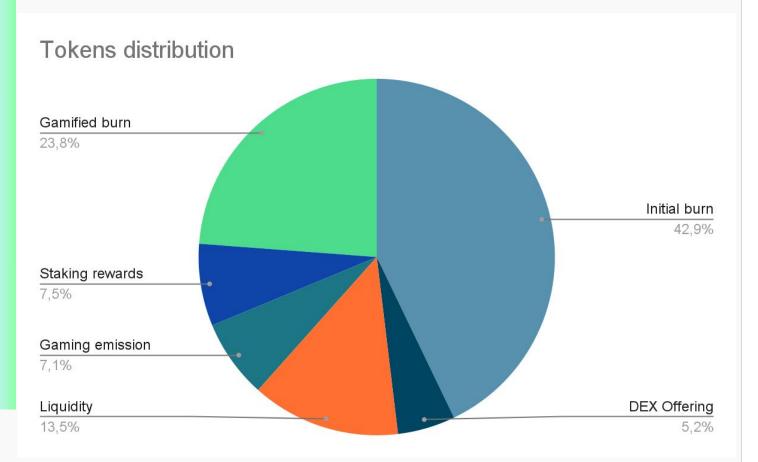

# Raisensu GOOD PRACTICES FOUND

- The owner cannot mint new tokens after deployment
- The owner cannot stop or pause the contract
- The owner cannot set a transaction limit

### \*The following tokenomics are based on the project's whitepaper and/or website:

- 18T Initial burn
- 5.67T Liquidity
- 3T Gaming emission tokens
- 2.2T DEX offering 3.13T Staking rewards
  - 10T Gamified burn

<sup>\*</sup>Current contract's total supply differs from the total supply stated in the project's whitepaper. More information about the initial tokens distribution can be found below: https://raisensu.gitbook.io/raisensu/infrastructure/usdrai

# THE

### 1 The team is annonymous

### **KYC INFORMATION**

We recommend the team to get a KYC in order to ensure trust and transparency within the community.

### **Website URL**

https://www.raisensu.com/

### Domain Registry https://www.godaddy.com

### **Domain Expiration** Expires on 2023-12-08

### **Technical SEO Test**

Passed

### **Security Test**

Passed. SSL certificate present

### Design

Single page design, appropriate color scheme and colors.

### Content

The information helps new investors understand what the product does right away. No grammar mistakes found.

### Whitepaper

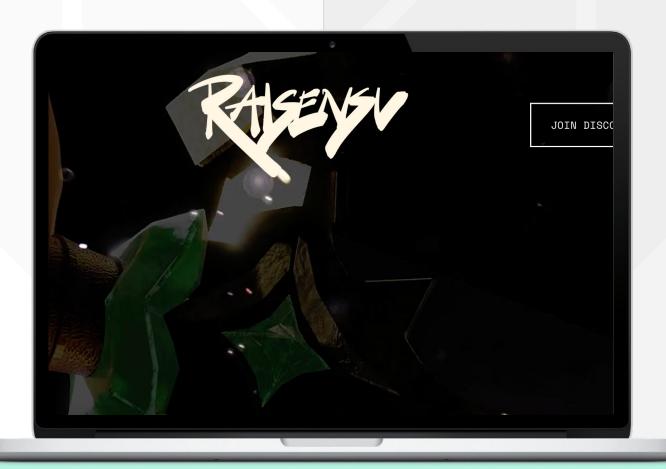

Well written, explanatory.

### Roadmap

Yes, goals set without time frames.

### Mobile-friendly?

Yes

### Disclaimer

This report shows findings based on our limited project analysis, following good industry practice from the date of this report, in relation to cybersecurity vulnerabilities and issues in the framework and algorithms based on smart contracts, overall social media and website presence and team transparency details of which are set out in this report. In order to get a full view of our analysis, it is crucial for you to read the full report.

While we have done our best in conducting our analysis and producing this report, it is important to note that you should not rely on this report and cannot claim against us on the basis of what it says or doesn't say, or how we produced it, and it is important for you to conduct your own independent investigations before making any decisions. We go into more detail on this in the disclaimer below – please make sure to read it in full.

#### **DISCLAIMER:**

By reading this report or any part of it, you agree to the terms of this disclaimer. If you do not agree to the terms, then please immediately cease reading this report, and delete and destroy any and all copies of this report downloaded and/or printed by you. This report is provided for information purposes only and on a non-reliance basis, and does not constitute investment advice.

No one shall have any right to rely on the report or its contents, and SpyWolf and its affiliates (including holding companies, shareholders, subsidiaries, employees, directors, officers and other representatives) (SpyWolf) owe no duty of care towards you or any other person, nor does SpyWolf make any warranty or representation to any person on the accuracy or completeness of the report.

The report is provided "as is", without any conditions, warranties or other terms of any kind except as set out in this disclaimer, and SpyWolf hereby excludes all representations, warranties, conditions and other terms (including, without limitation, the warranties implied by law of satisfactory quality, fitness for purpose and the use of reasonable care and skill) which, but for this clause, might have effect in relation to the report. Except and only to the extent that it is prohibited by law, SpyWolf hereby excludes all liability and responsibility, and neither you nor any other person shall have any claim against SpyWolf, for any amount or kind of loss or damage that may result to you or any other person (including without limitation, any direct, indirect, special, punitive, consequential or pure economic loss or damages, or any loss of income, profits, goodwill, data, contracts, use of money, or business interruption, and whether in delict, tort (including without limitation negligence), contract, breach of statutory duty, misrepresentation (whether innocent or negligent) or otherwise under any claim of any nature whatsoever in any jurisdiction) in any way arising from or connected with this report and the use, inability to use or the results of use of this report, and any reliance on this report. The analysis of the security is purely based on the smart contracts, website, social media and team.

No applications were reviewed for security. No product code has been reviewed.
